

2. Informed Mr. Naughton of the Staff of the House Government Operations Committee that neither CIA nor any other U. S. Government agency subscribed to the Dagblad Scheepvaart, a shipping trade journal published in Rotterdam. I offered, on behalf of the Agency, to send for copies of this document if he would give me the relevant dates. Without making any specific reference to CIA, Naughton informed me that the committee was very dissatisfied with the uncooperative attitude evidenced by many Government agencies, and we may be hearing further from this. They appear to be particularly annoyed with the Department of Commerce and with ONI. *19 April 1956*
